

(elenco parziale e solo a scopo indicativo per supportare gli studenti nella scelta della facoltà per le domande di ammissione al programma Borse di studio E università americane)

**A**

accountancy  
accounting  
adult and technical education  
adult education  
adult education and training  
advertising  
africana studies  
aging studies  
agricultural business  
agricultural education  
agricultural extension education  
agricultural and resource economics  
agricultural sciences  
american studies  
animal sciences  
anthropology  
apparel and merchandising  
apparel design  
applied anthropology  
applied behaviour analysis  
applied computing technology  
applied developmental science  
applied ethics  
applied science  
applied systematics in botany  
applied visual arts  
architecture  
art  
art history  
arts in teaching  
art studio  
athletic training  
atmospheric science  
audiology  
autism spectrum disorders and severe intellectual disabilities  
aural re habilitation

**B**

behavioural health  
bioagricultural sciences and pest management  
biochemistry  
biochemistry and biophysics  
bioengineering  
bioethics and medical humanities  
bioinformatics and computational biology  
biological and ecological engineering  
biological sciences  
biology  
biomedical engineering

biomedical sciences  
bioresource research  
biotechnology applied and biotechnology  
botany  
botany and plant pathology  
broadcast journalism  
business administration  
business administration and accountancy  
business economics  
business information systems

## **C**

cancer biology  
career and technical education  
cell and molecular biology  
chemical and biological engineering  
chemical engineering  
chemistry  
chemistry ACS certified  
civil engineering  
classics  
clinical sciences  
college and university leadership  
college student services administration  
communication  
communication disorders  
communication sciences and disorders  
communication studies  
community college leadership  
computer engineering  
computer science  
computer science and engineering  
conservation leadership  
construction management  
contemporary hispanic studies  
counselling  
counseling and career development  
counselor education  
creative writing  
criminal justice  
criminal justice administration  
criminology  
crop and soil science  
crop science  
curriculum and instruction  
cytotechnology

## **D**

dance  
design and human environment  
design and merchandising  
dietetics  
digital communication arts

## **E**

early childhood education  
earth sciences  
ecological engineering  
ecology

ecology and evolution  
economics  
applied economics  
education  
educational leadership  
educational leadership in k12 or higher education  
electrical and computer engineering  
electrical engineering  
elementary education  
energy system engineering  
engineering  
engineering, civil emphasis  
engineering management  
engineering science  
english  
english and american literature  
english education  
entrepreneurship in applied technologies  
environmental economics and policy  
environmental engineering  
environmental health and radiology health science  
environmental horticulture  
environmental science and policy  
environmental sciences  
equine science  
ethnic studies  
exceptional student education  
exercise and sport science  
exercise science

## **F**

family and consumer sciences  
finance  
fine arts  
fire and emergency services administration  
fisheries and wildlife science  
fisheries sciences  
fish, wildlife and conservation biology  
food science and nutrition  
food science and technology  
foreign language education  
forensic science  
forest ecosystem and society  
forest engineering  
forest management  
forest operations management  
forest sciences  
forestry  
french

## **G**

general business administration  
general sciences  
general studies  
geoenvironmental engineering  
geographic information science (graduate)  
geography  
geography and environmental science and policy

geology  
goesciences  
geotechnical engineering  
gerontology  
german  
global sustainability  
government  
graphic design  
groundwater engineering

## **H**

health administration  
health and exercise science  
health care management  
health informatics  
health sciences  
history  
history of science  
horticulture  
hospitality management  
human bioenergetics  
human development and family sciences  
human dimensions of natural resources  
humanities  
human resource management  
hydraulic engineering stream restoration and river mechanics  
hydrologic science and engineering

## **I**

individualized interdisciplinary honors research  
industrial engineering  
information studies  
information systems  
integrated resource management  
integrated science and technology  
interdisciplinary studies  
interdisciplinary classical civilizations  
interdisciplinary natural and social sciences  
interior design  
international affairs  
international business  
international economics  
international studies  
interpreter training  
irrigation and drainage engineering  
italian

## **J**

japanese  
journalism  
journalism and technical communication

## **L**

landscape architecture  
languages literatures and cultures  
latin  
latin american, caribbean and latino studies  
leadership studies  
liberal arts  
liberal studies

library and information science  
linguistics  
linguistics english as a second language  
long term care administration

## **M**

management  
management for science professionals  
management information systems  
management practice  
management practice in nurse anesthesia  
manufacturing engineering  
marine resource management  
marine science  
marketing  
mass communications  
material science and engineering  
materials science  
mathematics  
maths education  
mechanical engineering  
medical imaging  
medical laboratory science  
medical physics  
medical sciences  
medical technology  
medicine  
merchandising management  
microbiology  
microbiology immunology and pathology  
molecular and cellular biology  
multimedia  
music  
music education  
music studies

## **N**

natural resource recreation and tourism  
natural resources  
natural resource and recreation management  
natural resources management  
natural resources stewardship  
natural sciences, agricultural science and natural resources  
natural sciences education  
nuclear engineering  
nursing  
nursing registered nurse  
nursing science  
nutrition  
nutrition and food science

## **O**

occupational therapy  
occupation and rehabilitation science  
ocean, earth and atmospheric sciences  
online journalism  
organizational performance and change

## **P**

peace corps master's international

performing arts dance  
pharmacy  
philosophy  
physical and applied science  
physical education and coaching  
physical therapy  
physics applied  
political science  
print journalism  
production  
professional and technical writing  
psychology  
public administration  
public communication and technology  
public health  
public policy  
public relations

## **R**

radiation health physics  
radio and television production and management  
rangeland ecology  
rangeland ecosystem science  
rangeland sciences  
reading education  
real estate  
recreation resource management  
rehabilitation and mental health counseling  
religious studies  
renewable materials  
respiratory care  
russian

## **S**

safety  
safety technology  
school psychology  
science education  
secondary education  
second language acquisition  
social science education  
social science  
social work  
sociology  
soil and crop sciences  
soil science  
spanish  
special education  
speech communication  
sport administration  
sport and entertainment management  
sport management and marketing  
sports journalism  
statistics  
structural engineering and structural mechanics  
student affairs in higher education  
sustainability  
sustainable natural resources

sustainable forest management  
systems engineering

**T**

teaching  
teacher licensure  
technology management  
theatre  
tourism and outdoor leadership  
tourism management  
toxicology

**U**

urban and community design  
urban and regional planning

**V**

veterinary medicine  
veterinary science  
visual art

**W**

water conflict management and transformation  
water resource engineering  
water resources planning and management  
water resource policy and management  
water resources science  
watershed sciences  
wildlife science  
wind engineering and fluid mechanics  
women's studies  
wood science

**Z**

zoology
